

Samsung Gear S2 Watch Strap Replacement

Use this guide to replace the strap on your Samsung Gear S2 smartwatch.

Written By: Jacob Baldwin

INTRODUCTION

Has the buckle on the strap of your watch become broken, or do you just want to replace the factory strap with a custom one? Just swap it out.

TOOLS:

- [Tri-point Y0 Screwdriver](#) (1)
 - [Heavy-Duty Spudger](#) (1)
-

Step 1 — Watch Strap

- Flip the watch over so that the face is down.
 - Using a Y#0 screwdriver, unscrew the four 3.5 millimeter tri-head screws.
- ⚠ Remember to turn off the watch to avoid being shocked.

Step 2

- Using your finger, push forward on the release while pulling up on the strap.

i You may find it helpful to use the flat end of a spudger to push on the release instead of your finger.

Step 3

- Repeat the procedure from step 2 for the other strap.

To reassemble your device, follow these instructions in reverse order.
